

north, "An act for the improvement of Second street east, from Pennsylvania avenue to E street south," and "An act to repair the reservoir at the corner of Pennsylvania avenue and Ninth street west," were severally taken up, read twice, and referred to the Committee on Improvements.

Mr. CALLAN, from the Committee of Ways and Means, to which was referred the resolution authorizing a survey of James's creek, reported the same without amendment; and, after an ineffectual motion by Mr. Ennis to postpone its further consideration until Monday next, the resolution was ordered to a third reading, by the following vote:

Yeas—Messrs. Ennis, Callan, Ennis, Bryan, Haverhill, Mohun, Pepper, Brent, Johnson, Wheeler, Van Rensselaer, and Hill—12.

Nays—Messrs. Douglas, Kelly, Wannall, Hutchinson, Mulvey, Morgan, Miller, and Gill—5.

The resolution was then read the third time and passed.

Mr. ENNIS, from the Committee on Improvements, to which was referred the bill for grading and graveling upper Water street, between 25th and 26th streets west, reported the same without amendment; and the bill was read the third time and passed.

Mr. WANNALL, on leave, introduced a bill entitled "An act for taking up and relaying the gutter on the west front of square 403; which was read three times and passed.

Mr. DOUGLASS, from the Committee of Claims, to which was referred the bill for the relief of Joshua Peirce, reported the same without amendment; and it was laid on the table.

Mr. BRYAN, from the Committee on Improvements, to which was referred the bill "authorizing the curbstone to be set and footway paved on the south front of square 383," reported the same without amendment; and the bill was read the third time and passed.

Mr. BRYAN, from the Committee on Improvements, to which was referred the bill to repair the reservoir at the corner of Pennsylvania avenue and Ninth street west, reported the same without amendment; and it was read the third time and passed.

Mr. DOUGLASS, from the Committee of Claims, to which was referred the petition of Johnson Simonds, asked to be discharged from the further consideration of the same, and that it be referred to the Fifth Ward delegation; which was agreed to.

Mr. BRYAN, from the Committee on Improvements, to which was referred the petition of Wm. J. Tabler and others, reported a bill entitled "An act authorizing the curbstone to be set and the footway paved on the east front of squares 529, 530, 531, and 532," which was read three times and passed.

Mr. PEPPER, from the Committee on Unfinished Business, reported a bill for the repair of the gutter at the corner of Twelfth and H streets, and for other purposes; and it was referred to the Committee on Improvements.

Mr. BRENT, on leave, introduced a bill entitled "An act concerning the enclosures of streets and avenues," and also "An act supplementary to an act entitled 'An act laying a tax on shops, porter cellars, and confectionaries, and increasing the tax on ordinaries, retailers, and theatrical amusements,'" which were read twice and referred to the Committee on Improvements.

And the Board adjourned.

AMERICAN TELEGRAPH

WASHINGTON.

WEDNESDAY AFTERNOON, JULY 9.

For telegraphic reports and correspondence, see third page.

We publish the communication of "Inquirer," as we have done those of other correspondents, without assenting to the implications embodied. We by no means approve of the new standard of qualifications for the offices under the General Government. Approving of neither the principles nor practices of those whom Mr. Stuart has declared he would proscribe, we disapprove of his vaunting declaration quite as decidedly, and regret, as we feel sure he does, that he made it. A great error of some of our correspondents is, that they are but too eager for him to enforce that invidious declaration. The truth, however, will not suffer by investigation, and our columns are open to concise writers on all sides.

THE INFIRMARY.—We have often had occasion to note the faithfulness with which the affairs of this institution are administered; and we feel that a debt of gratitude is due to our citizens. We believe that the only endowment or annuity it receives is the sum of \$2,000, annually voted by Congress for relief rendered to non-residents of this city, in indigent circumstances, who are here often overtaken by accident or disease. For the many residents who are from time to time thrown upon its hospitality it receives no compensation whatever. Their right destination would be the Almshouse; but when brought to the doors of the Infirmary with broken limbs, or maimed, they are of course not turned away, but taken in and relieved as far as medicine and surgery can effect their relief. We have seen on many occasions the whole faculty of the College, and those noble and devoted young men, the resident students, toiling unremittingly by day and night for patients of this description; while the faculty, in their capacity of directors of the Infirmary, were freely expending their own means in the purchase of every thing essential to the welfare and comfort of the afflicted recipients of their kind offices.

These things should not be. We comment upon them without the knowledge of any of those interested, but for a practical purpose. We believe that our city has the means to defray such expenses; and that our citizens and their municipal councils have the will to act with justice and liberality in the premises. They have already provided a good Almshouse, it is true; but the same benevolence that led to this will also induce them to defray the expenses of patients at the Infirmary, where the purposes of benevolence can thus be promoted more effectually.

OHIO AND THE PRESIDENT.—The Ohio Whig State Convention reaffirms all the old Whig doctrines; pledges its party to sustain the Constitution; commends the administration of President Fillmore as having the unbounded confidence of the Whigs of Ohio; declares that, "as the compromise measures were not recommended by a Whig Administration, and were not passed as party measures by Congress, perfect toleration of opinion respecting those measures should be accorded to Whigs everywhere," declares Winfield Scott to be the choice of the Whigs of Ohio; and promises to support the nominee of a National Whig Convention, which it recommends to be held at Cincinnati.

A CASE AT THE INFIRMARY.—On the 25th of January a man named Thomas Ennis, aged forty-one, on forty-two years, was very badly injured in this city by the caving in of a bank of earth, beneath which he was at work. He was taken out and conveyed to the Infirmary, where but little hope was entertained of his recovery. His right leg was broken above the ankle, his person otherwise much injured, and his spine dislocated in the region of the dorsal vertebrae. In consequence of this last injury his lower extremities were entirely paralyzed, and the prospect of the recovery of his broken leg thereby much impaired. But the professors and students applied themselves earnestly to his case, and at this day they have good cause to be gratified at the measure of their success. Ennis is now of course incapable of hard labor or active locomotion; but he is sound and healthy. He is still at the Infirmary, an honest, kind-looking man, and probably as capable of enjoying life as ever he was. His gratitude for the skill and attention of those who have ministered to him will doubtless be long-lived. Whether he is rich or poor we do not know; but if the latter, we hope his way may be made smooth by the consideration of those with whom he is to make the journey of life—for he must, of course, be helpless in his lame and mishapen condition.

MR. SECRETARY CORWIN.—Again we feel constrained to defend the Secretary of the Treasury in his absence. It is busily reported that it was his interest in the *Gardiner claim* and the *Mears claim* which he sold to George Law, esq., the great steam mail millionaire, for \$82,000 in cash; and that these are the claims which, it has been alleged, were allowed upon forged vouchers.

Now, we have this to say: if those claims were backed up by forged vouchers, and the sum of \$82,000 was paid out of the Treasury upon them, the circumstance is a public calamity which will do our country great injury abroad, and will be looked upon at home, by all right-thinking men, with sorrow and regret.

But should the aforesaid claims prove forgeries, we have not a doubt as to the line of duty which Mr. Corwin will readily take. He will have nothing to do with the unclean thing, but will hand back to the Government every cent he has received on account of his interest in the aforesaid claims, even though it should make him poorer than he was when he assumed the office of Secretary of the Treasury. Whatever other counsel in the same claims may do, should the claims be established to be forgeries, we feel an abiding belief that Mr. Corwin will do the magnanimous thing without a moment's hesitation. We do not, however, reflect upon any one.

It is alleged that all the awards by the Board of Commissioners on the Mexican claims were paid in hot haste by the Treasury Department, even upon a list of the awards, and without any examination for the ascertainment whether the awards were just or not. In reply we have to say, that as we understand the matter, the decision of the Board of Commissioners was considered final for the action of the Treasury Department in paying the awards. Mr. Corwin, we believe, handed over to Mr. George Harrington, his chief clerk, the whole subject, who certainly dispatched the business with such rapidity and general satisfaction, that several writers for the press, ourselves among the number, lauded the transaction in terms of high praise. It was probably these paragraphs that gave rise to the allegation that the Department had exhibited hot haste in paying off the awards.

In our account of the Sabbath-school celebration at Stone's Grove on the Fourth of July, we omitted giving the entire names of the several youths whose recitations and dialogue contributed much to the pleasures of the day. Masters William Shedd, James Clephane, Walter McFarlan, and George Hansell were the little men who so handsomely performed the parts assigned them. The school, on arriving in the city in the evening, gave three hearty cheers for the "Citizens' Line" of omnibuses, by which they had been conveyed to and from the grove.

KOSUTH.—A Constantinople correspondent of the Boston Post, under date of May 24th, says that it is now understood there that Kosuth and his fellow exiles have received a positive promise from the Turkish government that, come what will, they shall be at liberty on the first of September next. "I asked," he says, "one of Kosuth's compatriots the other day whether he thought K. would go to America. 'Yes,' said he, 'when he has no hope of any thing better.' That is, when he is satisfied that there is no hope of the deliverance of his country, he will accept the offer so generously made to him by the American Government, and spend the rest of his days in that land which has become so great an asylum for the oppressed of all nations."

THE PATIENTS AT THE INFIRMARY.—Michael Hanrahan, and the colored man, (Samuel Brooks,) are both better to-day, but still not out of danger. Thomas Cross was well enough last night to go to his own home.

Some twenty or thirty men, who claimed the right to see the patients, menaced the keepers of the Infirmary in a most shameful manner between 8 and 9 o'clock last night, and at one time it was thought they would do violence to the doors and the inmates. Let good care be taken that this may not occur again.

OMNIBUS ON SEVENTH STREET.—The *Intelligencer* of this morning says: "Our citizens generally will be pleased to learn that there is now a regular omnibus line between the United States arsenal, the city post office, and the Northern Liberties. The whole establishment looks worthy of the public confidence, and we hope it will be duly patronized. It will be borne in mind that the Penitentiary, one of the points of attraction to strangers, adjoins the arsenal grounds."

WONDERFUL PROGRESS.—It is said by the *Washington papers* that in less than one year from the present time, travellers, by means of the Central and Pittsburgh & Ohio railroads, will be enabled to breakfast in Philadelphia and sup in Cincinnati during the same day.

THE BOARD OF HEALTH report seventy-six statements in the city of Washington during the month of June, 1851; white 55, colored 20. Sex, age, and color of one not reported.

THE ORATION pronounced at Piney Point on the 4th instant by our young and respected fellow-townsmen, R. H. CLARK, Esq., will appear entire in the *American Telegraph* of tomorrow. All persons desirous of procuring extra copies in large numbers will please leave their orders at our counter before noon.

GOLD.—How many young men have left the United States for California with an average of a thousand dollars each? Ascertain the number; then take an equal number in the workshops and on the farms, keep them in their pursuits, but expend a thousand dollars in educating them to follow those pursuits with increased efficiency; then estimate the wealth gained by each class, and the means of its production, and ask whether the placers of California or the talents within our youth afford the purer gold? Ask, too, which of them offers the greater safety and the more pleasure in the pursuit?

A sprightly young mechanic may qualify himself to conduct his business with great honor and profit, by expending a thousand dollars and two years in qualifying himself. We would not, with such advantages, exchange his situation for that of the most fortunate returned adventurer who has embarked with like capital and for a like time upon the business of gold-hunting. Where gold has been obtained, physical and moral healthfulness has been lost or greatly jeopardized. How we do err in our estimate of true wealth!

THE TREASURY DEPARTMENT.—The "Union" complains of the absence of the head of the Treasury Department, intimating that the business of the Department may suffer thereby.

It should be remembered that the duties of the Secretary of the Treasury are not so arduous now as they formerly were when Mr. Robert J. Walker was Secretary. The General Land Office, with about eighty clerks, has been detached, and placed under the head of the Interior Department. And further, a Bureau of Customs, with a commissioner and several clerks, has been established in the Treasury Department, to relieve the Secretary of a part of his duties. There has, moreover, been created an Assistant Secretary of the Treasury with a chief clerk, for the like purpose of relieving the head of the Department from a good portion of his official duties.

So the "Union" ought to see that the Secretary of the Treasury can not be absent, with more propriety, and less detriment to the public service, than either of the other members of the Cabinet.

THE ALMS-HOUSE.—We are inclined to think there must be some defect in the regulations for admission into this institution. We are informed that a poor woman, whose condition rendered it imperative necessary that she should have a refuge and attendance, was a few days ago unable to enter here until a magistrate, acting from feelings of benevolence, committed her as a vagrant. If the law does not contemplate relief in such cases, it should be very promptly amended.

CEREMONIES AT CHARLESTON, VA.—We learn from the *Spirit of Jefferson* that on Saturday next the ceremonies of laying the corner-stone of the Presbyterian Church, by the Masonic Order, promise to be of a highly interesting character. "The attendance of the Masonic Order, Sons of Temperance, &c.," the *Spirit* says, "will no doubt be very large, and the distinguished prominence of the speaker on the occasion, B. B. FRENCH, esq., will attract very many citizens from different parts of our valley."

POSTAGE ON TRANSIENT NEWSPAPERS.—Fitz Henry Warren says that all newspapers sent for a less period than three months, (whether sent from the office of publication or otherwise,) will come under the head of transient newspapers, upon which the postage must be pre-paid at the post office where mailed.

A lady sent to the Philadelphia *Sun* man to borrow a newspaper containing something pretty and interesting. The fellow wrapped himself up in a paper, and toddled off to see her!

CAUTION TO LADIES.—A Cincinnati paper states that Dr. Muzzey was one day last week called on to perform a singular operation upon the head of a young lady living on John street. It appeared that she had been in the habit of twisting and tying her hair so tightly that the scalp had become parted from the skull, and it was found necessary to open the scalp to remove the matter which had accumulated beneath. This is the first case of the kind we have ever known.

CRIMINAL COURT.—The case of the United States vs. Owen Connolly, for an assault on William Clare, was this morning called up, when the defendant, through his counsel Mr. Bradley, submitted his case to the court, and was fined eight dollars and costs.

LEWIS C. GUNN went off from Philadelphia, but, destined still to make a noise in the world, has got himself elected an alderman of Seneca, California.

SENATOR MORTON.—The Jacksonville, (Fla.) Republican of the 3d states that this gentleman has been for some weeks at his residence in Pensacola.

SWINE AT LARGE.—We are requested to ask whether hogs taken up by authority of the Police Department should not be sold at auction to the highest bidder, and whether they are thus disposed of after being caught? We know nothing of the law or practice, but freely admit they should correspond.

MR. F. HOLDEN promises a grand display of fireworks at "Locust Grove" to-morrow night.

MISSOURI.—So far party lines have not been drawn for the election on the 4th of August. A Secretary of State, Attorney General, Auditor of Public Accounts, State Treasurer, and Treasurer of Lands, are to be chosen. Judges of the Supreme Court, Circuit Judges for each Judicial District, and Judges of the Common Pleas and the Criminal Court, have all to be chosen to serve severally for the term of six years.

NEW HAMPSHIRE.—The \$500 Homestead Exemption Bill finally passed the House on the 1st instant, having previously been adopted by the Senate.

MR. STUART'S FREE-SOILERS.—Nobody seems to answer, for Mr. Secretary Stuart, the strictures of "AMSTERDAM," relative to the Free-soilers, *alias* Abolitionists, which the Secretary of the Interior, all the way from Virginia, chooses to retain in office.

Is it true, or not, that the Secretary's chief clerk is a rabid Free-soiler, *alias* an Abolitionist?

Is it true, or not, that the Commissioner of the General Land Office is an out-and-out Free-soiler, *alias* Abolitionist?

Is it true, or not, that the Commissioner of Patents is a rank Free-soiler, *alias* Abolitionist?

Is it true, or not, that both the President and Secretary of the Interior wish to get rid of the Commissioner of Patents—against whose official conduct nine sets of heavy and grave charges have been preferred—but do not choose to remove him because it might provoke the terrible wrath of some of his Free-soil (*alias* Abolition) backers, such as Messrs. Seward, Weed, and Greeley?

THE ALANTUR.—This is the name of the tree so general in our city, and the odor of which is so much complained of in its flowering season. A writer in a New York paper says of it: "Because of its freedom from insects and its fresh green foliage, it has become very popular, and has got possession of nearly every pleasant walk up town, without awakening a suspicion apparently among the people that it is poisonous as well as offensive in the flowering season. Insects avoid it because of the very properties which make it dangerous to man. I have known a whole family in the city of Brooklyn prostrated from a condition of good health to sick-beds by its poisonous breath, when the season arrived for leaving the windows of their sleeping-rooms open. They never knew what was the cause of their decline until one of their number had become a victim of its dangerous shade."

THE GARDINER CLAIM.—M. de Cuesta in the *National Intelligencer* of this morning says: "The [newspaper] statements say that I was summoned as belonging to the Mexican Legation. This is not so. I never belonged to it; and, although I have been employed by the Mexican Minister as his private secretary and interpreter, my connexion with the Legation has never been an official one."

"I know nothing of the claim of Dr. Gardiner. I never certified any papers relating to it, or had any thing to do with the 'getting up' of the testimony. I have never written to the President. I have not been in Mexico since 1829. I have no reason to believe that the claim was fraudulent, and have never had any interest in or concern with it, if it were so. The money I received of the indemnity was out of the claim of J. H. Mears, and was received upon a power of attorney, transmitted from Mexico to his executor, the Mexican Minister, and by him transferred to me. It was, as I understood, due to a creditor of Gardiner & Mears. But I have no knowledge of the facts whatever."

Gen. JOSE MARIA JAREBO was yesterday before the Grand Jury, to give testimony, as is supposed, in relation to this cause.

GEN. SCOTT.—This gentleman has now been nominated for the Presidency by Whig State Conventions in Ohio, Pennsylvania, Michigan, and Indiana, and by public meetings and papers in several other States. Every Whig paper in Maine, it is said, favors his nomination.

ABOLITION OF LAWS FOR THE COLLECTION OF DEBTS.—The Liquor Law of New Hampshire prohibits the collection of all liquor debts due by citizens of that State to the citizens of other States.

The piles under the London Bridge have been driven 500 years; and on examining them, in 1846, they were but little decayed. They are principally elm.

The Native American Convention, which met at Pittsburgh on the 3d, for the nomination of county officers, resolved to support Garret Davis, of Kentucky, and Dr. Reynell Coates, of New Jersey, as candidates for President and Vice President of the United States respectively.

How the Soda Water at L. A. Hall's Fountain and the eyes of the pretty ladies do sparkle on these warm mornings at the Centre Market; and how warm is Hall's welcome to his customers, and how cold his ice cream! He is the most active, energetic, person ever seen in the market, and well he is known by the ladies, young and old. His Soda Fountain is of the approved kind of Dr. John Kidwell, of Georgetown, and his Freezers are the most light affairs this side of the North pole! His stand is near Seventh street. Call on him.
